Maybe even better than free.

So try our free and simple filehosting service now. Simply upload your file and share the link. filehosting provides an easy possibility for you to send large files to your friends. It is also allowed to link to the download page from websites and communities. Any file in any format can be uploaded and downloaded forfree. Alternatively you can choose to share your download links on blogs, forums and social networking sites. If only we could, we surely would! On the otherhand, using file can actually save you money. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You decide whoyou want to share your files with. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. No account or credit card is requiredto get started. Files can be downloaded from any computer from our high speed servers. Why pay storage fees for a file that you just wanted to send to a friendor colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You can upload any type of file (movies,music, documents, images, zip files and more). We have no file size limit. You don't need any special software installed to be able to download your files. Ourservice is completely free for everyone. Unfortunately, we can't make that part free. Keep your files private, or send your download links only to friends orfamily. You can give this download link to your friends by mail or instant messenger. File is free to use with no gotchas and no hidden fees. There are norestrictions on the number of times a file can be downloaded. Using file, you can circumvent those limits without paying to upgrade your team chat service. Justupload the file you want to share with your friends and we send you a download link to your file. The cost of that data transfer is covered by your internetservice or the data plan on your phone. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferredbetween your computer or phone and our servers, then from our servers to your friends device. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees.
