Keep your files private, or send your download links only to friends or family. Unfortunately, we can't make that part free. We have no file size limit. Just upload the file you want to share with your friends and we send you a download link to your file. The cost of that data transfer is covered by your internet service or the data plan on your phone. It is also allowed to link to the download page from websites and communities. Simply upload your file and share the link. There are no restrictions on the number of times a file can be downloaded. Using file, you can circumvent those limits without paying to upgrade yourteam chat service. You can give this download link to your friends by mail or instant messenger. When you use file, you avoid storing the file you're sending inyour cloud storage or mail server. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storagefees. You can upload any type of file (movies, music, documents, images, zip files and more). Alternatively you can choose to share your download links onblogs, forums and social networking sites. Files can be downloaded from any computer from our high speed servers. If only we could, we surely would! On theother hand, using file can actually save you money. You decide who you want to share your files with. filehosting provides an easy possibility for you to sendlarge files to your friends.
