Maybe even better than free.

So try our free and simple filehosting service now. We have no file size limit. You can give this download link to your friends by mail or instant messenger.You don't need any special software installed to be able to download your files. You can upload any type of file (movies, music, documents, images, zip filesand more). If only we could, we surely would! On the other hand, using file can actually save you money. Any file in any format can be uploaded anddownloaded for free. Simply upload your file and share the link. Keep your files private, or send your download links only to friends or family. This is easy,fast and reliable filehosting! You don't need any kind of premium-accounts. Using file, you can circumvent those limits without paying to upgrade your teamchat service. There are no restrictions on the number of times a file can be downloaded. Files transferred the old-fashioned way tend to pile up and be forgottenabout, eventually costing you money in data storage fees. Alternatively you can choose to share your download links on blogs, forums and social networkingsites. File is free to use with no gotchas and no hidden fees. You decide who you want to share your files with. Unfortunately, we can't make that part free.When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Why pay storage fees for a file that you just wanted to send toa friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. The cost of that data transfer is coveredby your internet service or the data plan on your phone. No account or credit card is required to get started. It is also allowed to link to the download page fromwebsites and communities. filehosting provides an easy possibility for you to send large files to your friends. Our service is completely free for everyone. Yourwallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and ourservers, then from our servers to your friends device. Files can be downloaded from any computer from our high speed servers. Just upload the file you want toshare with your friends and we send you a download link to your file.
