Cactus design PowerPoint template This cactus template is perfect for botany students and businesses making presentations about the desert or the American southwest. Its cool, pleasing colors also make an interesting backdrop. 38. Desert design PowerPoint template And if you're looking for that same desert-type feel but the blue of the previous template clashes with your brand's logo, use this PowerPoint template instead. The fiery reds and deep orange colors give off a completely different vibe than those cactus designs but deliver the same high impact. 39. Cloud PowerPoint template This light and airy cloud background template is perfect for science presentations, nature conservation groups, and businesses related to sleep, weather, and so much more. 40. Cityscape views PowerPoint template This modern template gives you a worm's eye view of a beautiful downtown cityscape. And with the blue and white color scheme, your presentation will look as crisp as the skyscrapers in the background. 41. Sunflower PowerPoint template If the blue and white colors in that cityscape template are a little bland for your liking, consider using this bright sunflower one instead. The bold orange and yellow colors will keep your audience awake and energized, but since it's also paired with a softer white background, your information won't get lost in the brightness. 42. The Fisherman PowerPoint template This fisherman PowerPoint template uses the same strategy as the sunflower one: striking imagery against a white or muted background. Though the imagery is softer in color this time, it's still a bold and eye-catching sight to see. And thanks to the white balance, it doesn't compete with your information. Rather, each complements the other. Modern design PowerPoint templates The next group of templates uses modern designs, many of which are illustrated, to give a polished and sophisticated feel to your presentations. 43. Thaliard PowerPoint template For readers with data-heavy presentations, this Thaliard PowerPoint template is for you. With several slide layouts to choose from, you can display your data and statistics in a way that's engaging instead of overwhelming. 44. Feminine flair PowerPoint template This fun and feminine PowerPoint template balances a handwritten-style font with a light and airy color palette in millennial pink to create a classically beautiful design for the modern gal. 45. Brushstrokes PowerPoint template - pink This brush strokes PowerPoint template features an abstract design in hues of pink, purple and blue. 46. Brushstrokes PowerPoint template - green Similar to the above but using a cool color palette of seafoam greens and blues, this brush strokes template is sure to make a statement. 47. Modern and simple PowerPoint template The next free PowerPoint template is gender-neutral when it comes to the color palette, but that doesn't mean it's boring. With brightly colored pixels and squares, you'll have a professional template with a bit of personality perfect for the boardroom. 48. Nature PowerPoint template This eye-catching template features a modern, flat design of rolling hills and trees. Use it as the backdrop of your next environmentally friendly presentation. 49. Dark nature PowerPoint template A twist on the above template, this dark-themed nature template gives you a muted, classic option if you prefer something less bright. 50. Color radial PowerPoint template This template is not for the shy or timid since it will get your presentation noticed. With bright, vibrant pinks, oranges, and greens, your intel is sure to stand out. 51. Bright colored PowerPoint template And if the bright colors in the previous template are too much for you, this template may be a better option. With its soft yellow color and its use of retro shapes in vintage colors, you wind up with a light, fun presentation suitable for a presentation. 52. Flow PowerPoint template Now if bright colors are not what you're looking for, this cool and serene flow design has your name on it. With pastel colors and a light gray background, this one won't call too much attention to itself yet you'll still be able to get your message across loud and clear. 53. Gold sparkle PowerPoint template This gold sparkle PowerPoint template is great for creating a simple design that focuses on your information. Since the "sparkles" in the background are blurred out, the attention is focused solely on your words, not the imagery. 54. Blue sparkle PowerPoint template And the same thing happens with this blue alternative template - all eyes get directed to the content, which doesn't compete with the background. If you're making a presentation in a room with difficult lighting, this blue sparkle may be easier to read than the gold one before it. Since the background is a dark navy color, the white text will pop and be clearer to see. 55. Blue gradient PowerPoint template This free template by Daniela Trony features a blue gradient theme throughout, with plenty of opportunities to display your holiday cheer with this photo card template. Add your own image and customize the greeting, then send it to friends and family. 66. Santa Claus PowerPoint template Santa Claus is coming to town (and to a PowerPoint template near you!)
